by regester & to Carry 3500 bbls fitted for 20 Months Bound to the
South Atlantic Indian Oceans & Mosembeague Channell
for Right & Sperm whale if not Successful enaught in the
South Atlantic to return in one Seasen

At 11 A.M. Waid anchor & Maid Sail with a light & Steady B
from the South Clear warm & pleasent weather & worked
the Bay a Brig from wareham in Company out with us, Bou
to alexandre At 11 P.M. Discharged the Pilot Caudehunk
light Bearing about East fine Breezes & pleasent weather
later part hazy weather & a fine Breez All hands imployed
in Sundrys Jobs Saw Several vessells Standing to the N &
So Ends this Day Excluding 36 hours Courses & T.G. Sails
Sat the wind Same free

From D Newbedford towards The South Atlantic Ocean

Tuesday 11th Day of August 1835

P.M. Commences With light winds from the S & W
& hazy weather Secured the Anchors on the rails unbent
the Chains & Stowed them Below Saw Several
Sail Standing to the N & W
Middle part pleasent later part light Breezes
& pleasent weather All hands implayed in Ships
Duty fitting the the Boates & other Necessary Jobs
So Ends these 24 hours on Board the Good Ship Haugua
May God preserve us During the voyage May it Be
A short & Succesful ~~one~~ vayage & may we speedily
return to our Dearest & nearest friends again
Course Steerd By Compass S.E. By E.

Wednesday 12

the first part of these 24 hours light Breezes from
the South & pleasent weather
Middle part Same Clouday & fresh Breezes
Ends with fine Breezes & pleasent weather all hands implayed
in Ships Duty past a Brig Standing to the Eastward
Course E.S.E By Compass we are to touch at one of the
western Islands for Potatoes

Thursday 13

the first part of these 24 hours light Breezes & hazy
weather Middle part Clouday & Steady Breezes
Ends with Steady Breezes & pleasent weather all hands
implayed in Ships Duty we have 18 foremast hands
& only 3 of them Ever on Seamens Duty Before & the 3
have not had much Experience A Crew of Green punkins
as the Saying is I would ask who is to take Care of
the Ship But avast we have a few Aboaft the Mainmast
that will haf to protect the Ship By Day & night in A
Distressing ~~time~~ or Dificult time in haughty weather
while the heavy Gails Do blow & whissle in the Cordage
& around the lofty Spars loud the thunders roar oer
our head the lightning Sharp & quick shoots from horizon
to horizon as if it was to Burn & distroy us Evary moment
& the rain Decends in torrents from the Cloudes & pores
on our heads who now is to ~~assend~~ to start at any Call
or order to assend to the yards So high the word is Given
from the officer of the Deck ~~Step up~~ Spring up My
Brisk young men Send down T.G. yards Spring up to
Shaw your Ship regard we who oft times have Experienced
the Same the first Command obey & use the Ship without
Dismay whilst the Green punkins leigh Below

G. yard & Mast At 10 the wind from the North & Squally with rain Double reef T. Sails all the rest of these 24 hours Strong gails & thick weather the mast of the Same & light rain the wind aft Course S. B. C.
Tuesday 12th Day Observation longitude at 2 P. M. 62°-59° C Course S.E.	P. M. Commences With Strong winds from the N. N. E & Clouday weather at 7-30 P. M. hald the foresail up hald up to the wind headed to the ~~west~~ N. E. W Middle part the wind increased & attended with rain Closet reeft the T G Sail at 2 more ship & headed to the N & East Blowing heavy raining & thick log at 5 A. M. the wind hald to the West more Ship Do Ends these 24 hours ~~Strong~~ Strong winds & Clouday weather the fog Cleared Saw Whale Seraps & a Small Pease of Bluber
Wednsday 13th Jane latitude Obs 46°-51' South longitude at 10 A. M. 64-[illegible]-15	A. M. these 24 hours. fresh gails from the West & passing Clouder & Same Squally P. M. Tacked Ship at 3 A. M. Tacked again & headed to the South these 24 hours Ends with Strong winds from the W. S. W & Cool weather Same hail During the 24 hours & plenty Birds Course S. B. E.
Thursday 14th latitude Obs 48°-03' S longitude at 10 A. M. 66-17-C	P. M. Commences with Strong Breezes from the West & Same Clouday A. M. & P. M. Squally & light rain the wind More to the North Double reeft T. Sails field M. Sail at 10 to blowing & raining hard hald up the foresail & light to the wind headed to the westward at 4 A. M. Kep Your Course S. B. E. at 10 Saw a right whale to rugged to lower these 24 hours Ends with Strong wind from the A. W. & passing Clouds with Sail. Sail set to good advantage the air is Same Cool in this latitude all hands well & hearty on Board But one Canacker that I have Mentioned previous to this

Friday
15th Day
of January

P. M. Commences with a fine
Wind & good weather at 7 M. Saw the
Land Bearing SE by Compass, at 10
hald up the Courses & kept to the wind
At 3 A. M. Maid Sail & kept off for
the Land at 8 we were nie enaugh
to have a fair view of the North west
part of the Isle of Desalation the top
of the Southermoust Mountains were
Covered with Snow But the Northern Extremety
were not & Some Cool for Summer Season
Thick Clothes & under Shirts fit the Best & a
Monkey jacket decasionly. Kept the Chains
at 12 Meridian the North part of the land
Bore S. W. Distance about 4 Miles So Ends
these 24 hours on Board the Ship Jauguna
with light Wind from the North & fine
weather Now its I have a fair view of the
Isle of Desalation & Well it Deserves its
Name for what I Can See at the present view
to See its ruggig rocks fronting the Sea as
A Bulwork & Seems to Bid Defiance as it
were to the ruiging Seas that Dash against its
ruggid walls & the Same that raises high in
the air to the Coald & Stormy winds
that Does visit this part of the globe
in its Season By what Now is visable
to look at the top of yonder Mountain Covered
with Snow not a tree Nor any Soil is visable
to the Eye

1836

Remarks On Board The Ship Houqua Leighton
Chrismas Harbour In The Isle of Desolation

Saturday 16th Day of January 1836

P. M. Commences With light Winds from The North
& Pleasent Weather at 3 P. M. Braced up & Stood of
& on all Night at in the Morning thick fog at 8 A. M.
the fog Cleard of kep of & run in for the land at 10=30 hove
the Main topsail to the Mast about A Miles from the land
the Mait lowerd away his Boats & puld in for the land to
Sound out the harbour at 2 P. M. returnd Back again
& found good anchourage the fog Detains us untill 4=30
then it lighted again kep of for the harbour at 6=30 Came
to anchor at in [illegible] harbour one Mile within the pint
in 20 fathams [illegible] the Enterance of this harbour is
aboute one Mile [illegible] & Makes in about W. S. W. & tapers of
graderly the land is high Both Sides which Seems to Bee
nothing but A Said rock partley Covered with green Moss
or turf which I Shall Bee More abl to give A Better account
of it on the Southern point of the Enterance of the harbour
there is A remarkable rock which Stands 100 feet or rising
perpendickerly it is about 60 or 80 feet one way & about 40 the
outher & as nay as I can Juge at the Distance of a Mile & half
of & is flat to the top & has A large arch throught it nothing
More of any account to remark at present we furld our
Sails Sneug & git up [illegible] ppers & Set the watch one Boat Crew
& to Men in a watch there is A Continual Musick on Shore
with the Birds & [illegible] rgins for the rocks Covered with them
So Ends this Day Encluding 36 hours thick fog light winds from
the N & N E & raining weather

Continued 1836 Desolation Sunday 17 Ja

This Day Commences With light Winds from the N.N.E.
Ward & rainy Weather & thick fog at 6 A. M. the Wind Blowing
heavy by flaws let go the larbourd anchor & paid out nearly all
of the the Chains & got preventer takels on the Chains to Support the
Windlass By this time the wind Blowing vary heavy by flaws that
strikes down over the Mountains which would our Channells to the
water By a flaw that struck struck us on the Becam, sent Down the
M. T. G. yard & Mast raining vary hard the harbour smooth withou
the wind from the East N.E & SE at 12 Meridian Moderated went on
shore in the afternoon, saw 2 Sea Elephants & A plenty of Birds
Ends with light winds thick & rainy weather the water running in
torrents from the mountains & pours it Self Down over the rocks & has
fand about 150 feet or two hundred perpendickerly & Dashes it Belaw on the rocks
which forms a prety Sign

Monday 18th Day of January

this Day Commences With fresh Breezes from the N & W
foggy & rainy weather Middle part Strong Winds & good weather
Ends with Squally weather & Some rain & Coal weather Arrived
at 7 A. M. the Ship Triten of Portsmouth 400 bbls oil & the
Ship Portsmouth of Newberg 700 Do from St. Pauls.

Tuesday 19th Day of January

All this day strong guils from the N & W Squally weather
attended with showers of rain & hail at 7 A. M. the Ship Triten
had Drifted nearly ashore we went with one Boates Crew to assist
them & one Do from the Portsmouth hove up one anchor
& was abblige to Slip the other Chain & Just Cleared the rocks of the
South point of the enterance of the harbour & went to Sea. At 12
middle part the Portsmouth had draggd a Considerable ways took
Both of her anchors with the assistance of one of our Boates Crew
& went to Sea A french Ship Stood into the enterance of the
harbour Could not work up in to the harbour & put to Sea

Wednesday 20th Day of January

this Day Commences fresh light winds from the N or N W
Cloudy weather at 6 A. M. [illegible] foggy & light rain hove up the
anchors run the Cage & warped part the way up the harbour the wind
veered up & was obliged to Come to again By anchor about half way
the Distance that we want to go rainy foggy & vary Disagreeable
weather

Remarks On Board The Ship Hougua

Leighing	in Christmas Harbour In the I. of Desolation
	1836 Thursday 21th Day of January
Commences Claudes & good attended with hail & Snow	with Strong winds from the S.S.W & passing weather later part Blowing heavy on Squalls Ends with Strong gails & vayerlant Squalls of hail & Snow All hands mustered on Board

Friday 22 th Day

the first part of this Day Strong gails from the S.S.W foggy & rainy weather after 12 Meridian it Moderated So the Captain went ashore to take A look over the Lasty hills the weather good with passing Claudes the most that we have to Do is to look out for the Ship to See that She Does Not Blow out the harbour & Eat Drink & Sleep the Cannot Bee much Duty Exersired for the most part the time it is rains hails Snows or foggy very Disagreable Weather I am inhopes that the weather will Bee Better Soon & the whales will Show their Selves in grait Numbers Ends More Moderate & Claudy weather Saw remarkable lights in the air.

Saturday 23 th Day of January

This Day Commences with Strong gails from the S.S.W & Claudy weather at 7 A. M. the wind Moderate & flying Claudes at 12 Meridian Blowing heavy again from the Same quater Ends with Strong gails & foggy weather

commences

Commences Sunday 24 th Day

the first part of this Day Strong gails from the S.S.W & rainy foggy weather Near us leigh in a harbour to anchar in a Desolate Harbour & look all around & all that I Can See Seems to be Surrounded by Nature the Clouds & Sky the Sam[illegible] are in A inchanted part of the Globe But the [illegible] Mountains nor valies or the Shores Do not have the least Smile of the works of human hands I look on our Ship as A great value So far from our native Country from 9 to 10,000 Miles She has Brought us safe to this part of the Globe I am inhopes that She will Carry us Back are the raigning Main from whence we Came

This Day Commences with Strong gails from the W & W
& Clouday weather Middle part Moderate went ashare & Killd two
Sea Elephents fetcht them aboard & took the Bluber of them from
12 Meridian to 12 After part rainy foggy weather & blowing heavy

---

Tuesday 26th

This Day Commences with Strong Strong Breezes from the
West & ½ Clouday weather at 5 A. M. a light Breeze from the
South & pleasent weather have Both of our anchors up &
towed the Ship up to the head of the Bay & Drop our anchors
in 9 fathams water Sticky Botom Last Sails fore & aft at
8 Starboard & waist Boat went out Side to look for whales
Cruist of & on until about 1 P. M. the fog seting in & Same
raing run in again went on Board without any Succeps
about half of the Ships Company went ashare to take a look around
over the high & rocky Mountains I went on top of a Mountain
abroast where we lay It Does not look to be More than
half a mile from the Ship it is large two miles to the West
of my Jugement there is no Sail that we can Discover
a little Coarse grass that grows in the turf the rocks are shiverd
& Broken to peaces the top of the Mountain looking as if
it had Been a Burning Mountain I think By the rocks
that the island has Been visited By an Earthquake. there
is a plenty of fresh water & a few small ducks & a plenty of
Sea hens they Cate very good This day Ends with light Breezes
rainy weather & foggy

Wednesday 27th Day

The first part of this Day light Winds rainy & foggy
Weather Middle part Strong Breezes from the S. E. &
very heavy rain Ends with Calm & foggy weather

Thursday 28th January 1836

This Day Commencies With Calm & foggy Weather
at 4 A. M. Clear Calm & pleasent weather the Starboard &
waist Boats went out Side to look for whales Stood
out 4 or 5 Miles the wind Braced up Strong from
the westward & put Back Saw nothing in the afternoon
went ashare to Shoot Some fowl this Day Ends rainy & foggy weather

Remarks On Board Leeghing Ln Christmas Harb

Friday 29th Day of January 1886

Commences with light Winds from the N & W. rainy & foggy weather later part good weather hove up the & sifted the anchors the 1st & 2d mats & went ashore went up on the top of the Mountain on the aposite Side or West Side of the Harbour the Mountain rises with a Steep assent. onto More than half the height & then raises from 2 to 300 feet in a Solid rock the top of it leans over about 30 feet or there abouts towards the Harbour which forms a spiteful appearence in Coming up the Harbour to See such an immence Bulk So high in the air leaning it Self towards the Ship which if Should Brake of it would Make a trimenderous roaring on its foundation Below & Dash it self into the water & likely Some of it reach the Ship. Nothing but its Strength & Solidness keepes it from Doing So. as I was to observe where they have Drawn Some Small rocks which Struck on the Solid rock Below & Maid a reporte Something like a Cannon the men looked about as large as ff Small Monkeys from the Ship we fired we give ald Gack Darker two Charges which Maid the Mountains Echo this Day Ends with Light winds & Clouday weather

Saturday 30th Day

All this Day fresh gails from the Westward & Squally weather with Snow Squals went ashore a gunning & that Same Ducks I Saw two right whales went on Board two Boates went out Side & Could Not See any thing of them the Ship Portsmouth that anchord in the harbour about 10 Days ago & Drag hur anchars & put to Sea have in sight Betting up Caried away hur main yard Hoy a Sliding gland & put to Sea again

Sunday 31st Day of January

Saturday Commences with fresh gails from the westward Squally weather attended with rain & Snow in Morning Snow Moderate 3 Boates went out Side to look for whale I Saw one right whale gowing fast along Shore & was not able to Make him A prize the wind Blowing on went in the Ship Ocean of Newbedford arived Capt. Bourne

Remarks for February Monday 1th 1836

Commences With Strong Winds from the westward & Cloudy weather at 7 A. M. Started with one Boate from the each Ship & the Captains in Search of Some Better Bay farther W to the South & East went about 8 miles to the leward & puld about the Same Distance up a Bay & looked to See about 12 Miles where the land hid it from our Sight which formed the head of the Bay or Else it Sweeps of Some other Course this Bay is from 3 to 4 Mls wide as far up as we went & runs up West we Came Down the Bay & Stoped under the lee of the pinte killd two Sea Elephants Et our Dinner & Started for the Ship the wind wright in our teeth Blowing heavy the flaws taking the water up from 20 to 30 feet & a vary Bad Sea Shipt a Considerable water rather tuf pulling to the windward the flaws takin Blowing the oars out fr the roalocks at 4 P. M. we ware along side the Ship this Day Ends with Strong gails & Cloudy weather

Tuesday 2th Day

Commences with Strong gails from the W. N. W & Cloudy weather in the fore part of the Day the Ship Ocean under took to ward up parted a hawser Maid Sail & Beet up where we lay Ends with Strong Breezes & rainy weather

Wednsday 3th Day

the first part of this Day fresh Breezes from the Westward & wet weather at 6 A. M. went out Side with our Boates had not Ben out More than an hour Before the wind Began to freshen the rain Began to fall & we Sprung to hour oars went in without Seeing any whale Saw a Ship Standing in Did Not make her appearence to the Mouth of the harbour Supposed She Stood of after 12 Meridian the wind Increasing evary Moment at 4 P. M. Blowing a Complete Gail the flaws would Strike to the head of the Bay on the water with Such foarse to take the water up about forty feet & Drive it along before its rage like the N. Westers Does take the Snow up of the hills in America about this time of the year this Days Ends with the gail increasing & our Ships Draging Slowly Down the harbour By Some of the heaviest flaws.

Remarks 1836

Remarks On Board The Ship Thouqua Leighing in Christmas Harbour to the Isle of Desalation Thursday 4th Day of February

A. M. Commences with Heavy gails & fraim the Westward & Squally weather at 2 ock ~~AM~~ Gail Blew the hardist our Ships had Draged about 3 or 4 times ate the length at Day light the wind Began to moder at 4 P. M. More Moderate maind the windlass waid our anchors & put to Sea in Campany with the Ocean at Sunset we ware out side the harbour & Secured our anchors an the rail anhent the Chains & Stowed them under deck Middle part fresh Gails fraim the W. & W. & passing Squalls later part Squalls of hail & Snow So Ends this Day Enclusing 24 hours the weather More pleasent under Short Sail Stearing North by Compass ~~variation~~ variation nearly 3 points westerly

Saturday 6th Day of February

Sea, Account. P. M. Commences with Strong gails fraim the N. & W. & Good weather under Short Gail at 2 P. M. Spake the Ocean again Middle part the wind fraim the N. N. E. & light rain later part the wind fraim the W. N. W. & heavy rain Ends with Strong gails & ruggid weather all hands well an Board Except a few Seasick

Sunday 7th Day

From St. Helena Towards Newfoundland

Sunday 2 4th Day of Aprill 1697

first part of these 24 hours Strong Winds from the S.S.W. & hazy weather at 9 P. M. Strong winds Squally weather Attended with heavy rain & lightning Clued up fore & Mizen topsails furld Split & mainsail & Clued down the main topsail at 12 the wind light & flattering Squally attended with rain & rain lightning At 12 Cleard up & A fine Breeze from the S.W. Sat the topsails At 1 A. M. the wind hall'd to the North Tacked Ship Sat the Mainsail & Gib heading up W.N.W. the weather Clowdy & Strong & Steady Breeze At 4 A. M. raisd & Sail astern Tacked Ship & Stood for her at 8 Spake her which proved to Bee the Brid Gypsey of Newyork our intention was to Git Some provishion his reply was that he had Ben Supplyed 4 Days previous to this himself & that he had nothing But Dryed Beans to Eat Before me wore under his Stern Dawn tacks & aft Sheets & Stood on to the westward again at 9 raisd 2 more Sail 1 ahead & the other 2 points of our weather Bow the former proved to Bee A Brig Steering to the South the later a Ketch or Schooner on the opasite tack the Brig I think me Ould Spake her if we had Staid for-laid for her when we first saw her & without Doubt Got provishions from her She Being Outward Bound But we Staid no attempt So Ends these 24 hours. on Board the Ship Hanguea with Strong Variable Winds our Starboard tacks aboard with Courses & topsails Sat our Ship Leaking 600 Stroaks per hour our provision are Short Some are already out of Bread & the rest are nearly out we have ¼ lb of Beef & 2/3 of A lb of flour & Beens enough for another Mess hard is the fate of Many Seamen 6 8/4 Leagues

Latitude By Obs 30° 32' miles from Newfoundland

That belongs the distant main for a livlihood But is not our fault that we are so situated for we have had a long passage since we started for our native home. Ok may the wind soon prove fair and waft us to the arms we Love and perhaps we may procure something that may render life agreeable to us again although we have been for some time past under very disagreable Circumstances in regard of victables victuals however I hope that all will be well yet.
